

# Niagara 120

Experience High Performance

High output, floor standing or table top cooler from Cosmetal. The Niagara dispenses an immense 120ltr/h of chilled and sparkling water, making it the ultimate hydration solution for areas of high demand. Built with a stainless steel metallic casing, this unit is built to last and is easy to clean. The Niagara also offers simple manual switch control, or electronic dispense options. Featuring an integrated drip tray, it can also be upgraded with contactless dispensing.

- 30cm dispense height
- Dispenses ambient water + 120ltrs/h chilled & 120ltrs/h sparkling water
- Floor standing & table top models available
- Available with electronic or manual control panels
- High capacity ice bank cooler
- Sturdy and robust stainless steel build by Cosmetal

## Accessories

### Cosmetal Rail & Filter

High capacity Fiberdyne filter candle with reusable filter housing and installation rail. Includes all fittings and fixtures, replacement candles are also available.

### Klaran UVC LED

Protects direct chill water coolers from bacteria, viruses & other pathogens providing point of dispense protection. Available as factory fitted or for self installation.

### Gas & Regulator

Carbonated coolers require a gas regulator to connect the CO<sup>2</sup> cylinder. Our REGCO2 gas regulator is suitable for 600gm disposable CO<sup>2</sup> cylinders.

### Contactless

Upgrade this cooler by adding contactless dispensing. Helps avoid the risk of contact contamination and enhances your customers hydration experience.
