

1000C

Powerful & Compact

Our high output boiler that can deliver up to 186 cups of boiling water per hour. The 1000C has a small footprint to fit under overhead cupboards and is perfect for spaces with limited space. Like all our boilers, the 1000C is a well-insulated machine which is important to keep heat in and costs low. Features a self diagnostic system, long life elements, and is compatible with a touch free adaptor for contactless operation.

- 16.5cm dispense height
- 31ltrs/h of hot water (186 cups)
- Conventional lever for easy operation
- High grade insulation for maximum efficiency
- Stainless steel exterior guarantees durability
- 5ltr rapid draw off

Accessories

Installation Rail & Scale Filter

Includes one installation rail with all the fixtures and fittings, and one Brita C150 scale removal filter.

Scale Filters

Replacement Brita C150 scale removal filter. For use in hard water areas. Designed for hot water dispensers with large output capacities.

No Touch Adaptor

Allows for hygienic no contact dispensing. Eliminates any risk of touch contamination and is simple and easy to install.
